INTRODUCTION

Thank you for taking the time to complete this survey. An independent evaluation agency is conducting this evaluation to better understand how key components of the Teach For Nigeria's Two-Year Fellowship Program, including the recruitment and selection process, pre-service training, coaching, and in-school support contribute to your growth and effectiveness as a fellow.

Your responses will be used to help TFN identify what is working well and where the fellowship experience can be strengthened. Findings will be shared with program leaders, training staff, and coaches to inform improvements to the fellowship model. You will receive a summary of key findings at the end of the evaluation period.

Estimated time to complete: 15–20 minutes.
